PIM-133-P Product Overview

Product Overview

PIM-133-P (PN: CS-D133P) is a 13.3" industrial display that features a 10-point capacitive touch screen with a resolution of 1920 x 1080 (16:9) pixels and brightness of 400 cd/m 2 . The 3mm tempered glass with black silk-screen ensures the screen is water and steam resistant.

The typical power consumption is \leq 16W, while in standby mode, PIM-133-P uses around \leq 2W, making it ideal for all kinds of applications.

Ordering Options

Most of the Chipsee products can be customized during the ordering process. The product will be shipped with the pre-installed factory defaults if no extra requirements are specified. The table in the Specification section provides information about the product.

You can order PIM-133-P from the official Chipsee Store or from your nearest distributor.
